Similar to 2015 and possibly more

## HOW MANY HURRICANES SINCE 2013?

1 - 2013 / 2 - 2014 / 7 - 2015 / 1 - 2016 = 11

- July 2013: Tropical Storm Flossie passed just 5 miles (8.0 km) north of Kauai as a weak tropical depression.
- August 2014: Hurricane Iselle made landfall in southeast Island of Hawai'i as a moderate tropical storm, bringing heavy rain and flooding, significant tree damage, and minor structural damage before abruptly weakening after crossing the mountains and re-entering the Pacific. Overall, Iselle caused \$79.2 million (2014 USD) in damage, mainly to the papaya crop. It passed south of the other islands as a weak tropical storm. One person was killed indirectly having been swept away by a stream engorged with heavy rain from the storm.<sup>[30]</sup>
- October 2014: Hurricane Ana skirted just south of the Hawaiian islands, passing 85 miles (137 km) southwest of Kauai as a category 1 hurricane. Damage was limited to a few downed trees.
- August 2015: Hurricane Hilda passed within 200 miles (320 km) southeast of Island of Hawai'i as a tropical depression.
- August 2015: Hurricane Kilo passed within 410 miles (660 km) southeast of Island of Hawai'i as a tropical depression, it brought enhanced moisture into Hawaii, leading to locally heavy rainfall in that state.
- August 2015: Hurricane Loke brushed Pearl and Hermes Atoll as a minimal hurricane, although no damage was reported.
- August-September 2015: Hurricane Ignacio passed about 230 miles (370 km) northeast of Maui and Molokai as a category 1 hurricane, causing only minimal impacts.
- September 2015: Hurricane Jimena passed about 220 miles (350 km) northeast of Oahu as a weak tropical depression, it brought scattered heavy rains to Hawaii.
- September 2015: Tropical Storm Malia brushed Maro Reef as a weak tropical storm, although no damage was reported.
- September 2015: Tropical Storm Niala passes to the southeast of the Big Island, bringing tropical storm force winds to the island. Flood and High Wind Advisories were released
- July 2016: Hurricane Darby made landfall in southeast Island of Hawai'i as a minimal tropical storm.
- May 2017: Tropical Storm Adrian
  - DEADLIEST STORM from 1950 to 2014? INIKI - off Kauai.
